Course coulisseau:	50 mm
distance table- coulisseau:	250 mm
Puissance moteur:	2,2 Kw

A large green industrial machine, likely a punch press or shear, is the central focus. It features a prominent red safety cage around the work area. A yellow overhead crane is visible in the background, and a smaller green machine is partially visible to the right. The machine has a red emergency stop button and a red safety label. The background shows a white wall with blue pipes and a yellow safety line on the floor.
